Quality – Engineered and made in Germany

The family company Dentaureum has been one of the pioneers in the dental industry and modern orthodontics since 1886. Dentaureum develops and supports diverse methods of treatment with modern, sophisticated orthodontic appliances. The company headquarters are in Ispringen in the northern Black Forest – in the heart of the technology region of Baden-Wuerttemberg. Our medical brand products are developed here and manufactured in highly complex, state-of-the-art production facilities.

Comfortable to wear:
The snug fit makes it comfortable to wear – and barely noticeable.

Highly compatible:
Made of high-quality titanium grade 5, the retainer is also ideal for patients who prefer nickel-free materials.

Improved oral hygiene:
The flat, half-round profile facilitates cleaning the teeth and the interdental spaces.
